

# Electronic Security Technician

We are seeking an experienced Electronic Security Technician to join our team.

## Responsibilities:

- Perform servicing and installation of access control, intrusion alarm, closed circuit television systems, IP camera systems and other security related systems
- Perform upgrades and additions to systems in order to increase functionality and usability
- Evaluate, diagnose and troubleshoot systems and perform repairs as necessary
- Coordinate with Management and other trades for the purpose of completing projects and work orders efficiently
- Maintain and adhere to operational procedures and complete appropriate documentation

## Requirements:

- Strong knowledge of electronic security systems
- Experience with installation and maintenance of security cameras, alarms and access control systems
- Ability to read and interpret technical schematics and blueprints
- Proficient in the use of hand and power tools

Interested candidates are invited to submit applications to [sales@vincomlimited.com](mailto:sales@vincomlimited.com)

Please be advised that we will only be able to respond directly to shortlisted applicants.
